

A recent update to the Chrome browser has meant that on personal devices, or managed devices with a locally installed version of Chrome, users may see the following screen when attempting to access MySchool (www.c2kschools.net). A resolution to prevent this issue will be put in place over the coming weeks. In the meantime, in order to access MySchool in Chrome, please follow the steps below:

1. Click the Advanced button to bring up the following screen

2. Click **Proceed to ids.c2kschools.net (unsafe)** to bring up the MySchool login box. Please note, if the MySchool login page is not presented, it may be necessary to repeat steps 1 & 2.

3. Log in to MySchool.

If the MySchool page does not render correctly, refresh the page to correct this.
