

## How did other P7s feel going to secondary school?

I was worried about getting lost, but the school wasn't as big as I had first thought.

I was worried the teachers would be scary and shout a lot, but they were friendly and helpful just like my primary teachers

I was worried about the new subjects that I hadn't done before but I love them now. There are more options for P.E, Drama and Technology and the music and art is class.

I was worried about getting to lessons on time, but there were lots of students willing to help. They were really friendly and pointed us in the right direction if we got lost.

I was worried about bullying. In the first week at school our form tutors talked to us about the bullying policy and who we could go to if we saw any bullying in school. I felt safe knowing that my teachers were there to speak to if I had any worries.

I was worried about how much homework there would be, and that I wouldn't understand it. I didn't need to worry; the work was linked to what we already knew so it wasn't much harder than P7.

I was worried about not making friends, but now I have new friends as well as my friends from primary school. You spend lots of time together in lessons and form class so there are lots of chances to get to know people.
